

# The Science of Snowmaking

**Chris Corliss**

Director of Operations  
Mt. Sunapee

The Mount Sunapee Snowmaking Team will be at ALL's Science Pub on September 11th to share their passion for and knowledge of snow and snowmaking. Creating snow is both an art and a science, with many variables to consider. Did you know there are also many types of snow? This engaging discussion will be of great interest to anyone curious about the world of snow!

**Wednesday, September 11**  
**Doors open at 5 PM**  
**Presentation begins at 6 PM**  
**Galligan's Pub**

As always, advanced registration is necessary.  
Participation in Science Pub requires an active ALL Membership.
